## II. QUESTIONS

*SPS questions are created by researching on previous year papers and identifying relevant issues of the current year. This has helped us in ensuring that the themes selected in the tests have been repeated in the mains exam over the years.*

## III. SPS Solutions

*SPS 67th BPSC Solutions have been created keeping in mind, the following aspects*

1. That the solution provided is **just what is needed** to write a good answer that can score well in mains examination i.e we do not try to intimidate students with too much content in the solution.
2. Before the solution of every question, **the demand of the question i.e. introduction, body and conclusion** is briefly explained
3. Wherever relevant, **value-added material** is provided at the end of the respective questions solution.
4. The solutions of tests can act as **a perfect reference to revise relevant themes** for each syllabus keyword.

## How to make the most of SPS (67<sup>th</sup> BPSC / Mains - 2022)?

*The success of the program depends on:*

1. **Writing tests in a timely manner** and as much as possible to achieve maximum improvement.
2. **Implementing and improvising inputs** provided by the Mentor either telephonically or in person is known to have achieved visible impact on marks.
3. **Implement suggestions provided through evaluation and mentorship in the subsequent tests.** *As Albert Einstein said: "Insanity is doing the same thing over and over again and expecting different results."*
4. **Avoid submitting 3-4 tests at one go**, as it defeats the purpose of a test series in **achieving incremental improvement**. Proactively solicit mentor feedback after every 2-3 tests.
5. **Do not submit 10 papers one month before the exam.** It becomes impossible to recommend changes 2-3 weeks before the exam as students do not have the time to implement feedbacks.
