Comprehensive Preparation In Dedicated Timeline

The foundation program helps students do the right thing at the right time. With a focus on ensuring that the prescribed syllabus is **covered well in time** and that the aspirant has enough time left for evaluation of acquired knowledge and revision. The program is designed to suit the diverse learning needed to excel at the examination.

Comprehensiveness is provided by covering each aspect of examination through

LEARNING COMPONENTS

- **GS Classes** – The classes take care of complete preparation for Prelims and Mains. The classes are conducted in offline and online mode. They are followed up with doubt sessions. These classes are supplemented with crisp handouts making revision an easier task. The classes shall be conducted on Saturdays and Sundays as well while making sure that sufficient preparation leave is provided before the Bts.
- **CSAT Classes** – Considering aptitude test, the Achilles' heel of everyone, we provide a riveting strategy and proper methodology for CSAT. Class will be supplemented by materials and practice questions. There will be regular discussion of Previous Years Questions to keep you in tune with the recent trend of the exam. With the expert team of specialists in mental ability and English, we will reduce the time taken for preparing the CSAT paper by providing sound conceptual clarity and regular practice.
- **Current Affairs Classes** – In our Current Affairs classes, we cover entire dynamic portion of Mains as well as Prelims examination, with crisp notes, one-pager handouts for a chaos free preparation, like no other. We have helped 100+ students crack IAS with our Current Affairs classes. This program has proven to add value and improve score in Mains examination.

- **Essay Classes** – These classes will focus on developing the critical thinking abilities to write essay in an unbiased or balanced manner. Students will be trained to write essays in coherent fashion with effective and exact expression which is rewarded by the Commission. The classes will ensure that students are able to tackle unconventional, abstract and philosophical topics following the current trend.

EVALUATIONS & REVISION

- **Daily Benchmark Assignments (BAs)** – The first step of evaluation & revision components is daily benchmark assignments. The daily benchmark assignments will ensure assessment and feedback to aid improvement on everyday learning of the classes. The tests are based on important topics covered in the class from an examination point of view, thus not only drawing attention on the most important aspects of a topic, but also to help a student prepare better notes for themselves with the help of model answers and references provided for the assignments.
- **Benchmarks Tests (BTs)** – The second step of evaluation & revision components is benchmark test. The benchmark test (comprises both objective and subjective tests), is conducted at regular intervals to simulate UPSC examination pattern from the very beginning of the preparation journey. The Benchmarks Tests (BTs) are designed to help students in monthly revision. These tests are important as a student is not expected to learn the trick and trade of solving MCQs or Answer Writing on day one, but it is a gradual process, and these tests will help you incrementally learn the same. The quality of questions, solutions and evaluation of subjective questions adhere to the standards set by our MGP program.
- **Select Focus Group (SFG)** – The third step of evaluation & revision components is SFG. The SFG begins post your completion of GS Classes. It consists of 50 Questions / 1 hour test written every day (except Sunday) in disciplined manner at a designated time. With multiple tests for each subject, it ensures you have completed a detailed revision of all the recommended textbooks for Prelims.
- **Answer Writing Focus Group (AWFG)** – The fourth step of evaluation & revision components is AWFG Test. Generally held post prelims, this is SFG for Mains. It ensures detailed revision. The tests are followed up with detailed discussion which will help you understand how to approach a question as well as create niche content for the questions and topics asked in tests. Discipline is again an important part of this program.
- **Mains Guidance Program (MGP)** – The fifth step of evaluation & revision components is MGP Test. The Mains Guidance Program (MGP) is a mentor guided, test series-based preparation Program for Civil Services Mains Preparation.

SUPPORT COMPONENTS

- **Dedicated Teaching Assistant (TA)** – A TA will be present in every class as a friend to engage with students and help them clear their doubts. TA will be acting as a link between students and the faculty.
- **Mentorship** – Available in person, online and telephonic mode, mentors will partner with you to diagnose where you are going wrong and help you improve your content and skills required for exam. The mentor-mentee relationship is a formative one. Mentees receive feedback on their preparation, create realistic goalposts to measure their progress in achieving it.
