# The Idea behind GSAP

The GSAP is a **mentor guided mains specific guidance program**. It seeks to consolidate and solidify your mains preparation by helping you **a) generate relevant content** required for mains examination and **b) learn and streamline your answer writing skills**. The 4 months program will ensure that your mains preparation is done with time in hand without affecting timeline of your prelims preparation.

## What we plan to do for 2024 to solve this problem?

There are two components of Civil Services Mains preparation
- **A relevant Knowledge Base for preparation**
- **Answer Writing Skill**

While our Mains Guidance Program provides the near-perfect solution for developing answer writing skills we plan to expand the scope of our Guidance Program to simultaneously develop the Knowledge Base and fine-tune the answer writing skills.

## Why choose GSAP?

In our experience of 7 - 8 years of guiding students for mains examination, we have noticed that many students are able to crack the Prelims again and again but the mains exam becomes a roadblock for them. They are stuck at either Mains stage or they reach interview with very less marks in mains which finally affect their standing in merit list. This is primarily because:

**#1 Fragmented preparation:** a) preparing without plan and focussing mostly on topics being covered in online websites *or* being asked in test series/answer writing initiatives. b) underestimate or overestimate the syllabus of UPSC CSE and have a false notion - *"I have been preparing for UPSC for past 3 years, and I know everything. I have made my own notes, read every book, and have taken so many classes."*

**#2 Lack of consolidation:** a) students who have attended foundation few years back has failed to update their notes and reading in line with recent trend of UPSC. b) most of the foundation courses offer very basic understanding of the subject and often limit themselves to factual information in their course structure. c) too much of fact gathering.

**#3 Gaping holes in preparation:** a) failure to prepare for value added topics for eg. A student is aware of citizen charter but hasn't studied "sevottam model". b) lack of notes and reading material on topics which don't have concrete sources in a book like IR, Internal Security or even Ethics.

**#4 Difficulty in breaking the vicious cycle:** The biggest problem that we at ForumIAS Offline, faced was that we had students who had faced some failure in their previous attempts. The problem with failure is that it reinforces wrong notions more deeply in your mind. For example,
- I only solved 2000 questions this year. I must solve 10,000 MCQs this year.
- There is no use studying, you must only practice.
- No one can teach you anything.
- Luck , and not hard work is how you crack CSE.

**#5 Candidates with high number of attempts (2+), usually face the below problems:**
- They no longer have the same level of energy, motivation, or peer group to study.
- They have studied something of everything, but full of nothing, so reading the same books/ taking same classes irritates them.
- They do not make new notes at all, and are stuck with notes which are 2-3 years old when they first stated preparation.
- They have reached a knowledge plateau – with each passing day, they learn nothing new.

**#6 Misguidance:** a) a lot of student tend to copy toppers or their peer strategies without giving a thought of what actually works for them. b) a lot of guidance from peers and others are clouded in their own experiences and not on the specific issues being faced by you.

## The Components of GSAP and how they will aid the aspirants is detailed below:

**Content Building Classes (CBC)** - The classes will be held 5 days in a week in 2 hr + 2 hr setting. These will ensure complete coverage of relevant static content for GS papers. The curriculum of the class has been curated such that you understand the locus as well as outer boundary of content required to be prepared.

**Current Affair Pre-cum-Mains Classes by Dipin Damodaran** - The philosophy of the class focusses on completeness, content differentiation, and consolidation to ensure value addition to your content and hence boost your score.

Students enrolling in GSAP can choose any Pre-cum-Mains batch of Current Affairs, including the batch started in July 2023.

The Current Affairs classes ensure **(1) We add value to the knowledge base of candidates who choose us (2) We provide content differentiation in the class,** since **the key to secure high marks in the Mains examination is content differentiation** – so that our students answers are both more qualitative and substantially superior to what is written by the average candidate.

**Ethics+ Classes by Ayush Sinha-** These classes will focus on the following aspects:
- Complete & Comprehensive Coverage of Ethics Terms & Terminologies.
- Case Studies covered with scenarios of real life where a Civil Servant faces Ethical dilemma.
- Coverage of key issues and expected questions through Questions & Answers.
- Quality Note Making & Answer Writing.

**Daily Benchmark Assignments (BAs)** – The daily benchmark assignments will ensure assessment and feedback to aid improvement on everyday learning of the classes. The tests are based on important topics from Mains point of view. BAs will be graded daily.

**Tailor Made MGP -** Mains Guidance Program will help supplement your preparation. They will provide an evaluation of your learning and help you master the different dimension of answer writing. Feedback of the evaluation will help in understanding mistakes and reorient your approach towards answer writing. **Half-length MGP Test** based on coverage in class will be conducted **every week,** for the whole duration of classes. For post completion of classes, **4 Full Length Tests** will be provided.

**Mentorship** - Throughout the program you will have a mentor assigned to you who will help you to incrementally increases your answer writing skills.

## What will GSAP not provide?

**\*Factual information** - Basic concepts and definitions for e.g. what is inflation? Or what is GDP? Or What is Art 14? etc.

\* The program is not recommended for freshers or aspirants who have not completed basic reading of all subjects.

## Course Schedule:

- Regular classes will be held **5 days (Monday to Friday)** in a week starting from **23 October**, at **4 PM.**
- Each class will be of **2 hours** (**4 PM to 6:00 PM | 6:15 PM to 8:15 PM**) duration.

## GM Crops

### GM Cotton
- **Developed**: Mahyco + Monsanto
- **Genes**: Cry1Ab, Cry2Bc (Bacillus thuringiensis (Bt) )
- **Seeds**: Bollgard1, Bollgard2
- **Issues**: yield stagnation, Pest attack, Weed attack;
- **Working**: Cry proteins -> Paralyze bollworms -> Death
- **Acreage**: MoA - 93% by 2011;

### What are the advantages of GM cotton?
- Insect control: 3 types- American, spotted, pink bollworm;
- Yield: 3 times between 2002 and 2014; India - largest producers from importer;
- Economic: Reduced insecticide cost; increased income (reduced cost, increased yield)
- Environment: Reduced pollution, bio-magnification;
- Nutrition: GM Rice-Vit A;

### What are the issues related to GM cotton/crops?
- **Pest**: American bollworm (controlled) , Pink bollworm (developed resistance - super bugs) : BG1-2009, BG 2 - 2014;
- **Non-target pests**: artificial selection pressure -> alternate pests
- **Ecological**: Extinction vs Super bugs/weeds
- **Biodiversity**: 2004 Govt Biotechnology task force - no GM in BD rich area;
- **Seeds**: Terminator seeds: Greenpeace: Farmers loose sovereign rights over seeds;
- **Yield**: MoA: 2003, Bt Acreage 3.4%, yield enhancement- 60%; 2005 Acreage 15%, yield enhancement-90%; Guj: acreage - 5%, yield: 138%;
- **Seed**: Public sector rollback; private dominance
- **Economical**: Increased insecticide,
- **Farmer/Agri distress**: Greenpeace -> Increased cost, stagnating yields;
- **Regulation**: PSC pointed regulatory lapses in field trial and data monitoring
- **Socio-economic**: 2004 TF: rural women 4.25 crore employment man days (de-weeding)
- **Nutrition**: SC TEC, 2013: complete ban on GM food - increased herbicide application
- **Intelligence agencies**: NGO's like Greenpeace, Gene campaign; foreign funded anti-national activities;
- **Black market**: Seeds sale; Shatkari Sanghatan, 2019 - defied laws

### GM Brinjal
- **Developed**: Mahyco;
- **Genes**: Cry1Ac;
- **Status**: 2007-2009: Tests carried out
  - 2009, Oct: GEAC granted approval
  - 2010: SC TEC stayed; Govt adopted 10 year moratorium; More trials
  - 2020: Moratorium ended
  - 2020-23: trials in 8 states including PB, HR

**GM Mustard:**
- **Developed**: Deepak Pental;
- **Genes**: Bar-Barnase-Barstar
- **Advantages**: Heterosis breeding; controlling inbreeding and promoting hybridization;
- **Status**:
  - 2014-15: confined biosafety trials
  - 2015: GEAC approval granted; later retracted;
  - 2017: SC stayed commercial release
  - 2018: field trials approved in PB and HR;

## Gene therapy
### What is gene therapy?
- Technique - modifies a person's genes to treat or cure disease.

### What are the various mechanisms of gene therapy?
1. Replacing
2. Inactivating
3. Introducing a new or modified gene

### What are the types of gene therapy?
1. Somatic Gene Therapy: Effects not transferred to next generation
2. Germline Gene Therapy: Effects transferred to next generation

### What are the benefits of Gene Therapy?
- Treatment of Rare diseases;
- Effectiveness: therapeutic benefits effective for long periods of time;
- Accuracy: design therapeutic agents that can influence any specific protein.

### What are the challenges associated with Gene Therapy?
- Complexity of Gene Delivery and Activation:
- Immune Response:
- Commercial Viability:
- Informed Consent:
- Justice and Equity:
- Designer babies:
- Use of Embryos:

### What should be the approach going ahead?
- Use as Last Resort:
- Monitoring:
- Regulation and Scrutiny:
- Equitable Access:

## Gene Editing

### What is gene editing?

Type of genetic engineering - DNA is inserted, deleted, modified or replaced in the genome of a living organism.

### What are the categories of gene editing?

- **SDN 1**- changes in the host genome's DNA through small insertions/;
- **SDN 2**- the edit involves using a small DNA template to generate specific changes.
- **SDN 3** - larger DNA elements or full length genes of foreign origin - similar GMO.

### What are the applications of gene editing?

- Disease modelling, Cancer models: e.g. Car-T, gene diagnostics
- Trait stacking:
- Greener fuels: 3rd gen biofuels
- Crops and Livestock: GM Crops; food security;
- Environment: de-extinction;
- Industrial Biotechnology: food, chemical, medicines;
- Pharmaceuticals: Gene therapy
- Biomedicine: biomolecules;

### What are the issues/challenges in gene editing?

- Off-target mutations:
- Human germline: unpredictable changes transmitted to following generations.
- Gene interaction: complex, unpredictable;
- Ecological impacts: 'gene drive' - disappearance of the whole targeted population
- Regulation: GEAC – human resource development, keeping pace with science;
- Uncontrolled clinical trials: no standard norms for standardisation of norms for clinical trials
- 'Designer Babies': Engineering human embryos altered for social rather than medical reasons e.g. to increase height or intelligence
- Economic viability: justice and equity;

# Topper's Testimonials

I was a part of MGP at Forum IAS. Apart from this I also took Current Affairs classes for mains by Dipin Damodran Sir. The top notch quality of the content and the versatile perspectives I got from sir's classes really boosted my score in G.S. One on one interaction with Ayush Sir during my interview preparation helped me.

I am really grateful to Forum IAS especially Dipin Sir and Ayush Sir for their valuable inputs.
