About MGP INFINITY(∞)

We all need a Mentor.

The MGP INFINITY(∞) Program is a Pre-cum-Mains Guidance Program by ForumIAS. In this program, a candidate will have a Dedicated Mentor, who will take him/her through a mutually discussed time-bound plan comprising both Prelims & Mains for GS & Essay papers, such that the candidate has the right guidance backed by the ForumIAS Content & Research Team.

The Program shall provide a study target to be achieved regularly, and a follow-up to ensure accountability and correctness of the path a candidate is choosing, with the purpose of having a rock-solid preparation before he appears for the exam. It is available in both Online/Offline mode.

I would like to extend my heartfelt gratitude ForumIAS team for supporting me throughout my preparation. I was a student of Eklavya Program (now MGP INFINITY(∞)). The personalised plan with set targets, assignments, tests, quality material and mentors call inculcated consistency, discipline and gave the right direction during all stages of the exam. I am immensely grateful to my mentor for the guidance, encouragement and having unflinching faith in me. I am thankful to the entire team of Eklavya Program (now MGP INFINITY(∞)) for the support extended at every step. It has been great learning experience with ForumIAS

What not to expect from the Mentor?

- A Mentor, an expert in Answer Writing & Prelims strategy, is someone who has guided a few hundred students with good ranks in the past and has complete knowledge and experience of the complete life cycle of the preparation and the likely blind spots and pitfalls. He is not expected to be a tutor, to teach subjects with dictation.
- A mentor can be a psychological counsellor in only a limited capacity. He may try to help a student with anxiety issues in a limited manner. However, a mentor specializes only with respect to the CSE Syllabus, Answer Writing and strategizing. He should not be expected to be of use in guidance with respect to private matters of the candidate.
- Candidates must seek professional advice only and not personal/private advice from the mentor.

What is the difference between MGP and MGP INFINITY(∞)? Which one should I choose?

MGP provides a Mentor supported Test Series based program for Mains. You can discuss your paper after every test and make improvements in your answer writing with subsequent tests. A pre-set standard plan is followed for everyone which can be postponed. The MGP INFINITY(∞) program is a pre-cum-Mains Guidance Program where the study plan and assignment itself are made by the Mentor and the MGP INFINITY(∞) Team. Candidates who only need answer writing practice and improvement in answer writing must go for the Mains Guidance Program. Candidates who are looking for a comprehensive preparation suite may go for MGP INFINITY(∞)

What are the expectations from the students?

- Since this is a self-study program, discipline, commitment, and a certain level of consistency are expected from the mentee.
- A mentee must be truthful and realistic with respect to the time investments he can make for the examination. Only then a good plan can be made
- A Mentee must focus on covering the syllabus instead of worrying/pestering about things that do not matter in the long run.
- A Mentee must ensure that he covers the syllabus in the time once committed and finishes the assignments in the given time. This will require good time management skills, which the mentee must develop over a period.
- A Mentee must trust and follow the Mentor and work as per guidance provided by the Mentor.

What is the difference between the GS Foundation Program and MGP INFINITY(∞)? Which one should I choose?

GSFP is a classroom-based foundation program where the onus on the content/notes is with the faculty. We do not recommend the MGP INFINITY(∞) program over the GSFP, as a classroom program ensures that proper notes are made – which are crucial for the exam. The MGP INFINITY(∞) Program on the other hand will provide a student with a Mentor, who will require the candidate to make notes (through curated assignments) by doing self-study, research and reading reference material suggested by the Mentor. In short, the notes in GSFP will be dictated/ provided by the faculty, whereas in MGP INFINITY(∞) the notes have to be made by the student himself.

How to proceed with the program?

- The candidate will be required to enroll by paying the full fee if he wants to go ahead with the program.
- After payment confirmation, the MGP INFINITY(∞) Team will reach out to the candidate and set up a call with the Mentor who will discuss the preparation level to gauge and determine the starting point for the candidate. (We all have different starting points, depending on our previous efforts for the exam and schooling/ graduation background).
- A broad Plan will be made by the Mentor for the candidate, followed by 8-day/12-day targets which the candidate must follow. Candidates will be required to complete the assignment and submit it to the program coordinator by doing self-study and research/ sources recommended by the Mentor.
- To set the accountability, the program coordinator will follow up with the student and set up the Assessment & Guidance session (AGS) for the candidate.

How to enroll?

Students can enroll in the program by paying the fees through the below mentioned means:
