Why Essay Paper in CSE is a challenge?

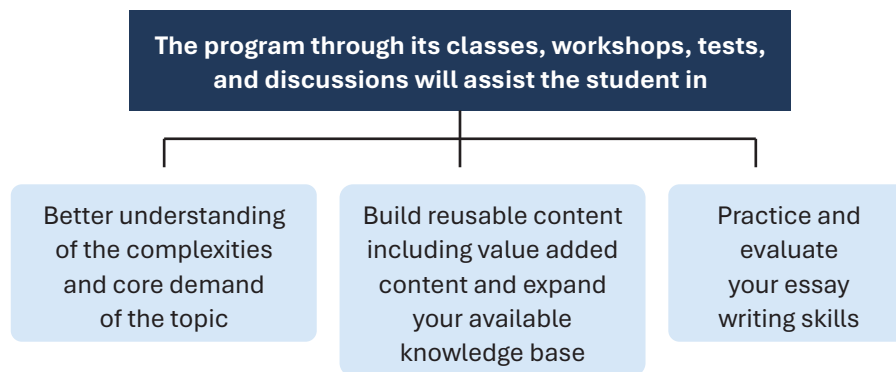

Essay paper has become the **determinant factor for getting selection as well as top ranks** in CSE with high variation of upto 45-50 marks for an individual student in consecutive Mains. At the same time, there were students securing high score of 140+ to as low as 37 in UPSC CSE for several years.

It has always been considered to be a paper with good scoring potential with much lesser effort needed as compared to GS. However, UPSC has changed this narrative. Essay paper is emerging as one of the most challenging papers for students, requiring their consistent effort and attention now.

There is no holy grail strategy for essay and hence there could be numerable ways of approaching a single essay topic. Apart from knowing the content and being able to present in a coherent structure, **essay paper is all about MINDSET. This makes practice writing an essay very important.**

How will EGP 2025 help me in Essay Paper?

We believe that the program through its classes, workshops, tests and discussions will assist the student in **a) better understanding of the complexities and core demand of the topic, b) build reusable content including value added content and expand your available knowledge base, and c) practice and evaluate your essay writing skills**

With our guidance, the UPSC CSE toppers have been able to fetch high scores (175 and in recent years 145+) and overall improving from their low scores in previous mains by 30 - 60 marks.

However, this program will help you as much as you practice. The classes will be a stepping stone towards success, ultimately depending on your essay-writing practice.

Our students who have notably improved their essay score by 20-30 marks in CSE 2024.
