Because it takes more than just a test series to clear the mother of all examinations.

What is the problem we are trying to solve?

The nature of Prelims examination has been ever evolving. This requires not just a reading of the basic text, but also understanding of advanced concepts, coverage of new areas from which questions are asked. But this isn't enough - what one also needs is knowing the ways and means to attempt prelims questions and developing the aptitude to tackle them in the actual exam over a period of time.

People who clear Prelims are not just the ones who have done static and current well. It is also not those who only *know* how to solve the prelims questions - because a strategy that works one year does not work the other year.

At ForumIAS, we should know.

For we have ***helped thousands of students*** clear the Prelims after not clearing it for 2, 3, 4 years.

People who clear prelims - and they do so every year - are the ones - who understand the demand of the examination and have covered the basics, clarified the advanced, mastered ways and means to attempt the paper, and practiced well in advance to rehearse before the final exam.

In short, there is a rigorous process before you outcompete nearly 98% of the people to find your name in the Mains appearing List.

Remember - there is no mains, no optional, no interview for us - and practically all our efforts are wasted if we do not clear the prelims. It is for this reason; it is said that Prelims is the passport to the Mains examination.

To add to this - there is the infodemic of hundreds of online courses with lightweight content - in the name of simplifying the preparation - which are far away from the demand of the examination but are created to attract the non-core masses preparing for any government exam - only one of them being UPSC. The course is not generic so as to prepare you for other exams. In other words, it is tailor made for UPSC Prelims. Period.

What is Prelims Sprint?

Prelims Sprint aims to solve this problem by providing a short duration course targeted for Prelims 2026 with a fair mix of classes, regular tests and mentorship that aims to help students writing the Prelims examination have a robust preparation before they attempt the Prelims on May 24th.

Who should join this program?

This program is suitable for candidates who have tried their hand at prelims and have not found success - simply because despite the hard work, they have failed to understand the core demand of the examination. It should be taken by candidates who are willing to commit 25 hours / week for test taking and classes for securing prelims 2026.

Working candidates with paucity of time can take this program as a one stop solution for prelims and bank on it for their preparation.

Candidates who have gotten started with the basic books can also take advantage of the program for accelerated learning and speeding up their preparation.

Mode of the class: The class will be conducted in OFFLINE and LIVE online mode only.

Duration: 2.5 - 3 Months approximately

Class Days: Monday, Wednesday, Friday, Saturday

What if I miss a class?

This is a fast paced course with the purpose of training candidates to clear prelims in one go. If you miss a class in the LIVE mode, you can still watch and finish the classes till before the next test or 48 hours - whichever is earlier. Do not join the class, if you have any other priorities apart from prelims during this period. Further tests must be written at the designated time in LIVE mode only. Tests cannot be written at any time as per one's will - which defeats the purpose of the program. It is this discipline that is crucial for selection in the prelims.
